First Community Foundation Partnership grant to support New Center for Healthy Aging

Participants at the Loyalsock-Montoursville Center for Healthy Aging were joined by representatives from the First Community Foundation Partnership of Pennsylvania at their monthly luncheon, where they showed appreciation for the recent grant awards from the Williamsport Lycoming Community Fund and the Walter J. Heim Fund at

the First Community Foundation Partnership of Pennsylvania.

With those awards, FCFP is supporting the addition onto the Loyalsock Township Community Recreation Center, which will be the new location of the Healthy Aging Center for the area. While additional funding is still needed, the project is coming together.
