

MATP Out of County (Area) Trips

MATP consumers sometimes are referred out of STEP Transportations service area for medical services. In such cases, STEP Transportation will need a referral from a primary care physician stating that the consumer needs to leave the area to receive such services. This is a requirement under the MATP Guidelines. The consumer should also be aware that STEP Transportation requires three (3) business day’s notice prior to the trip. This also allows STEP Transportation time to ensure that the resources are available to complete the trip. STEP Transportation’s schedule for Out of County (Area) Trips:
